About USA Rare Earth

USA Rare Earth is building a vertically integrated, domestic rare earth magnet production supply chain. USAR is currently constructing a 310k square foot rare earth sintered neo magnet manufacturing facility in Stillwater, Oklahoma. USAR also controls mining rights to the Round Top Mountain rare earth and critical minerals deposit in West Texas, which holds significant deposits of heavy rare earths, such as dysprosium and terbium, as well as gallium, beryllium, lithium and other critical tech minerals. USAR's permanent neo magnets and rare earth minerals are required for a wide variety of products used in the defense, automotive, aviation, industrial, medical, and consumer electronics industries.
